AEMP™

ABILITY ENHANCEMENT
MULTIMEDIA PROGRAMME

Educating-Enabling-Empowering

- Working since 2010
- Within more than 21 cities
- Across India and Overseas

*AEMP is a range of various pre-vocational, vocational and skill building educational programs for person with diverse needs to enable and empower them through technology, multimedia and art based work-oriented programs. It is a unique blend of creativity, which help student to learn through play and to develop their 'thinking skills'. The user of AEMP says "AEMP has not only changed the traditional dimension of vocational education but also has been proved as **MULTIMEDIA THERAPY**".*

EXPERTS SPEAK

The Ability Enhancement Multimedia Program has impacted thousands of Persons with Disabilities through its Therapeutic, Academic & Vocational approach across India and Overseas.

Dr. Hemlata Tomar
Director

National Centre for Disability Studies, IGNOU

Unicorn really appreciates AIMS "Training & Placement Solutions" Program. Companies like Appls, Lacie and Wacom are really impressed by students who have gone through the AIMS "Training & Placement Solutions" Program. Students have complete knowledge about the competitive environment and current industry demand..

Unicorn Infosolutions Pvt. Ltd.

We used the tool on one of our batch and found the results quite perceptive and surprised us all. It helped us understand so many facets of our students which were unknown to us despite our regular interactions with them.

Dr. Preethi V. Shanbhag
Academic Director - Manasa Educational
Foundation for Mental Health
(MEFFMH)

This is to appreciate AIMS Media's project "AEMP" with our special children in Mental Retardation with other disability has successfully completed six months. This is for the first time they have been dealing with special children and it is a remarkable approach. We wish them to continue with such good works with other disabilities too.
