

ART n DESIGN LEARNING LAB

A FUSION OF CO-CURRICULAR AND ACTIVITY-BASED LEARNING TOOLS

Fostering Learning Interest + Transforming Classroom Experience For Students With Diverse Needs

In Association with
Vimarsha School, Bengaluru

"Harmonizing Academics and Artistry: A Vision for Creative Education"

At the intersection of innovation and education lies a shared vision between AIMS Media and Vimarsha Charitable Trust. This vision encapsulates the belief that art and design are not just supplemental to education but should be woven into its very fabric. Through collaboration and dedication, we aim to elevate art and design to the status of core subjects, enriching the academic experience for every student to Embracing Creativity, Making Learning Fun and Creative, Accessibility for All, Empowering Educators and Building a Brighter Future.

Connecting Classroom to Real Life: The Role of Art & Design at Vimarsha

At Vimarsha, we believe that education should extend beyond the confines of the classroom and resonate with the everyday experiences of our students. Art and Design Learning Lab and its books serve as powerful conduits for this connection, engaging all senses and fostering a deeper understanding of the world around us. By integrating these disciplines into our curriculum, we enrich the learning journey, enhancing observation skills, social interactions, and overall holistic development.

"Leading with Vision: An Insight from Management and Teachers

Art & Design has become a very valuable subject which introduces new topics in an engaging way to all our students."

- Janhavi Lakshminarayanan
Founder and Principal

"Art & Design brings out the creative side of the children. They are always ready to put on their thinking caps to make it interesting and give their own inputs"

- Madhu Suman
Art n Design Teacher, Level 5

"Helped me learn programming and it feels good to see my students learn and implement the skills taught."

- Anitha Ravindranath
Art n Design Teacher, Level 6

"My photography skills have improved and I enjoy teaching my students the finer skills of photography."

- Rekha Sudhakar
Art n Design Teacher, Level 7

"I'm very happy to see improved interaction and colouring skills among my students."

- Brinda Seshnath
Art n Design Teacher, Level 3

"It is a delight to see my students learn to work as a team and show interest in the activities."

- Revathi Srinivas
Art n Design Teacher, Level 4

"Vimarsha School: Tailored Classrooms for Holistic Development"

Vimarsha School prides itself on its diverse and tailored classroom structures, designed to cater to the unique needs and aspirations of each student. Classrooms are organized based on several factors, including learning levels and individual goals, ensuring that every student receives the support and resources they need to thrive. The school is divided into 3 units which are again categorized into 6 classes according to their learning level and individual goals.

SCHOOL STRUCTURE

Academics

- **Functional Academics**
(English, Maths and EVS)
- **Board Exams**
(10th and 12th NIOS and State Board syllabus)

Pre-Vocational

- **Cooking and Baking**
- **Computer Basic Skills**
- **Product Making**

Employability Training and Internship Programmes

Art & Design is sync with the existing education ecosystem of Vimarsha. Aligning creative disciplines with the broader educational framework enhances the overall learning experience and contributes to a well-rounded education.

Certainly, the implementation of Art & Design within a school requires a well-structured process to ensure its seamless integration into the existing educational framework.

Set of information based on 19 components shared by the school, which is further goes for internal audit by the proficient team of AIMS Media in order to align the goals & objectives of books with school. After the thorough study and analysis, AIMS Media generates a categorization and books allotment sheet and shared with schools for better clarity.

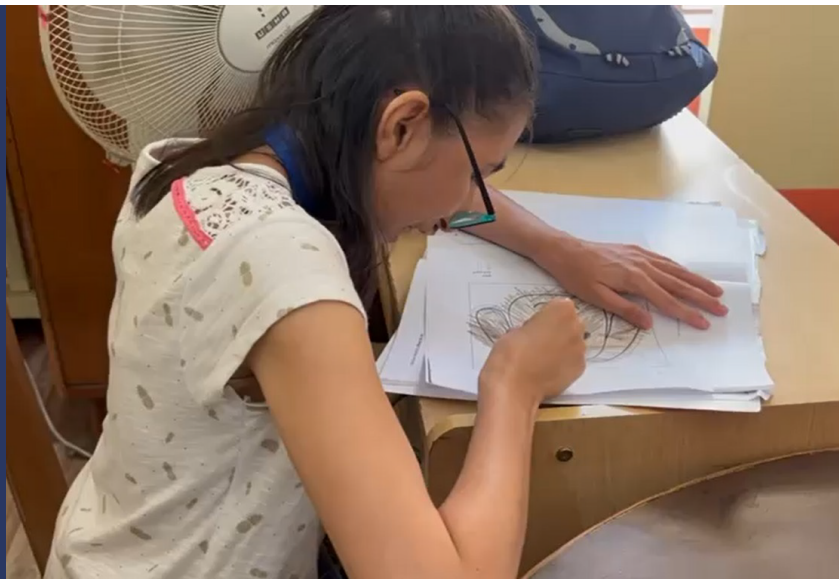

"Artful Integration: Different Levels of Art & Design Aligned with Vimarsha's Classroom Goals"

"Unveiling Growth: Student Development Milestones in Different Areas"

Jeeva and Nirmal have demonstrated commendable progress in their ability to concentrate on tasks, showcasing increased focus and dedication to their work. Additionally, their proficiency in coloring has shown significant improvement, indicating a deeper understanding of color theory and application. Harshita's development in visual and spatial skills marks a notable enhancement in her cognitive abilities, contributing positively to her overall growth and learning experience.

Jeeva, Nirmal and Harshita
Student
Art & Design, Level-3

Vikram has exhibited a notable boost in his imaginative and creative abilities, showcasing a more innovative approach to tasks and projects. Similarly, Varsha's creativity has flourished, allowing her to explore new ideas and express herself more dynamically.

Vikram and Varsha
Student
Art & Design, Level-4

Kiran has made remarkable strides in his typing skills, now capable of independently framing sentences and conducting research on various topics using online resources. Rama's enhanced concentration and increased typing speed are evident, along with his proactive approach to exploring new subjects introduced in the classroom.

Kiran and Rama
Student
Art & Design, Level -5

Karthik has demonstrated creativity and resourcefulness in completing assigned tasks, displaying an ability to think outside the box and find unique solutions. Siju's comprehensive understanding of various concepts, including programming, reflects his dedication to learning, accompanied by notable improvements in typing speed.

Kartik and Siju
Student
Art & Design, Level -6

Shiva and Surabhi CP have shown significant progress in their focus and learning skills, indicating a heightened ability to engage with academic material effectively. Their improved learning capabilities contribute positively to their overall academic performance and classroom participation, fostering a conducive learning environment for all students.

Shiva and Surabhi
Student
Art & Design, Level -7

Surabhi has made notable progress in their interpersonal skills, demonstrating a deeper understanding of color concepts. Their ability to interact with others has improved significantly, contributing positively to their overall growth.

**Surabhi
Student
Art & Design, Level-3**

Varsha has demonstrated commendable advancement in her organizational skills. Her ability to structure tasks and manage resources efficiently has enhanced her effectiveness in various activities within the classroom setting.

**Varsha
Student
Art & Design, Level-4**

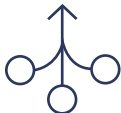

Rama has exhibited a remarkable curiosity and enthusiasm for learning. His eagerness to explore new concepts and topics reflects a proactive approach to education, fostering a dynamic and engaging learning environment.

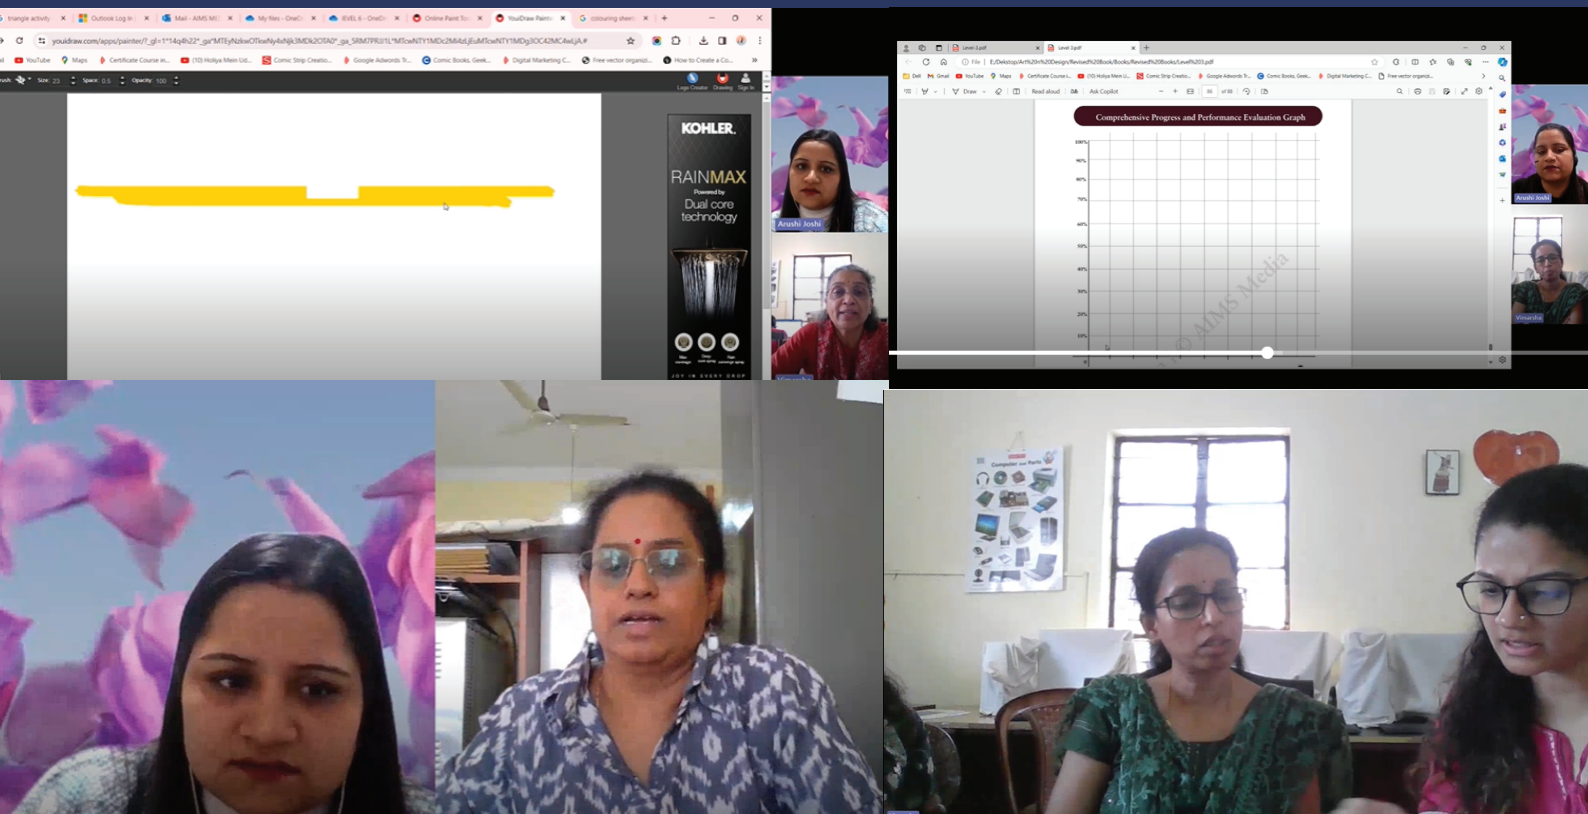

**Rama
Student
Art & Design, Level-5**

"Empowering Educators: Unlocking the Benefits of Capacity Building"

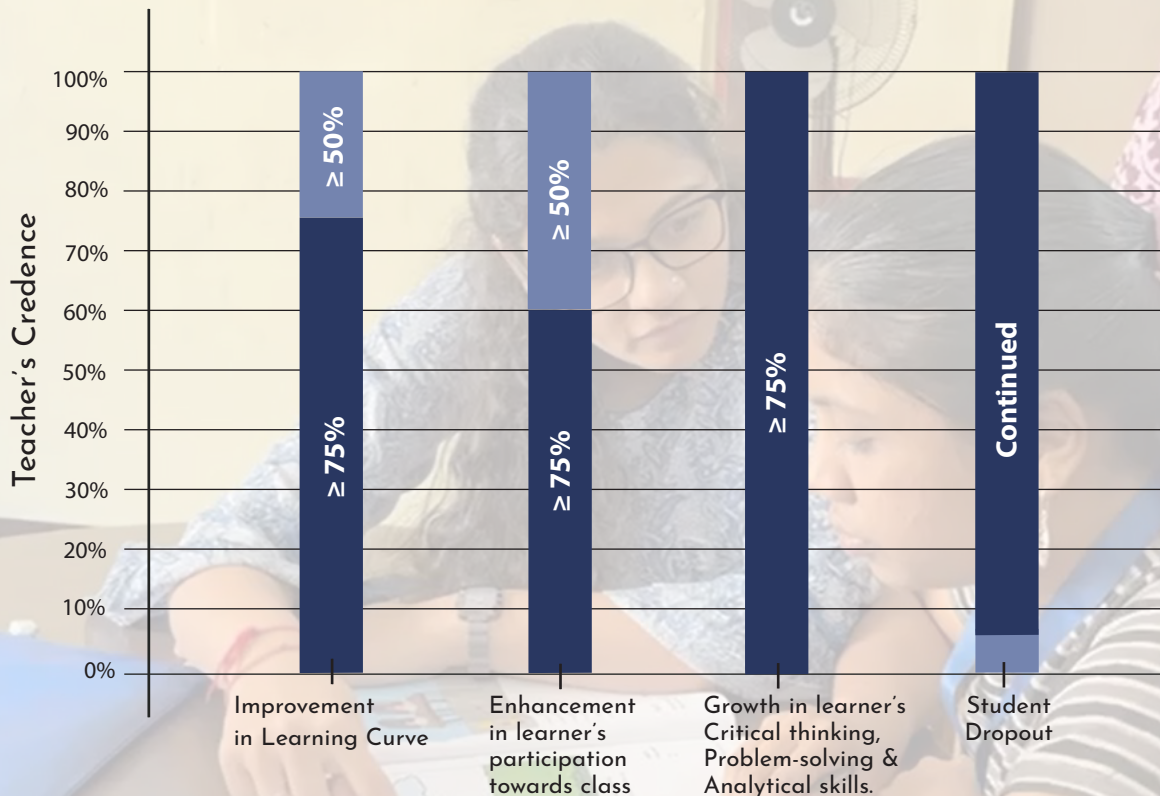

Capacity building initiatives for teachers offer numerous benefits that enhance their effectiveness in the classroom:

	<p>STREAMLINED ACTIVITY PLANNING: Capacity building helps teachers develop efficient methods for keeping track of monthly activities and planning them effectively. This results in better organization and smoother execution of educational plans.</p>
	<p>DOUBT CLARIFICATION: Through capacity building programs, teachers are provided with opportunities to have their doubts clarified. This fosters a supportive learning environment where teachers can enhance their understanding of various concepts and teaching methodologies.</p>
	<p>SIMPLIFIED TEACHING OF COMPLEX CONCEPTS: Teachers who may not be familiar with advanced topics such as computer basics, programming, or photography are supported through capacity building efforts. Simplified explanations and hands-on training enable teachers to grasp these concepts themselves, empowering them to effectively convey and teach them to their students.</p>
	<p>IMPROVED ENGAGEMENT: Capacity building helps teachers refine their teaching approaches, particularly for concepts that are familiar but require more engaging delivery methods. By learning new instructional strategies, teachers can make lessons more interactive and captivating, enhancing student engagement and comprehension.</p>

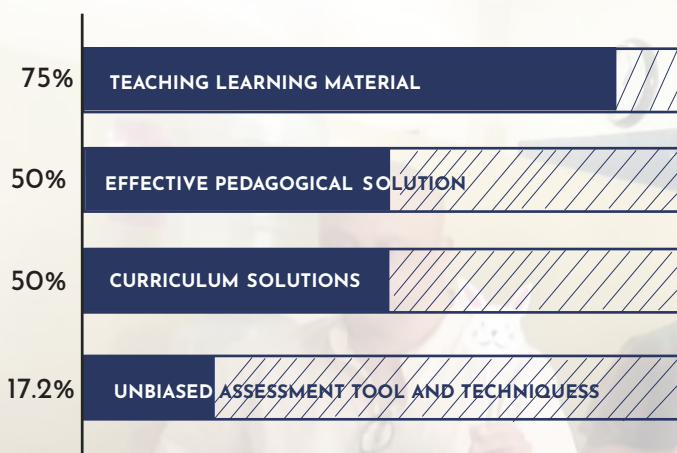

ART n DESIGN IMPACT : STATISTICAL REPRESENTATION

The stats presented below represents the impact on students and are derived after the careful observation of teachers.
