The Impact of AEMP and Inspirational Stories by Parents

AEMP- a set a skill-building and vocational-training programs for the specially-Abled

A portrait of a young man with dark, wavy hair, wearing an orange t-shirt, smiling slightly. He is positioned on the right side of the page, partially overlapping an orange hexagonal graphic.

HARMIT SINGH 19 YEARS

BACKGROUND

My son Harmit Singh was diagnosed with Mild Autism when he was in Class 3rd. During his growing years my tension of his future also grew. Although his treatment was helpful, but still what will his future be like was always on my mind. After he completed class 8th, I had to put him in open school as he could not cope with the studies of regular schooling. When he turned 15 and had finished Class 10th, a friend of mine suggested AIMS Multimedia for him, since one of her relatives had also been part of the institute.

My son joined the beginner's course in January 2019. He used to go to the centre thrice a week, where they worked on his professional skill development – drawing skills, working on computer especially paint, basics of animation and photoshop. They not only worked on his professional development but also worked on his life skills development as well such as handling of money, responding to people, anger management and many more. The faculty at the centre was very understanding and caring. Regular PTS were held where the teachers not only gave feedbacks but also guided us as to how to work with the child at home.

When pandemic hit us in March 2020 centre was closed. But to our relief by May, 2020 online classes were started and the hand holding of the teachers was so good that my son moved smoothly from beginner's level to advance level by end of year 2020. Teacher has been a guide and friend to my son ever since. The bond he shared with my son ensured that he progressed beautifully in his advance level. He is simultaneously getting projects on the topics he covers and then gets a stipend for the same by the end of the month. This has been a great incentive and a morale booster for my child. It has made my child confident in his approach towards the programme.

"As a parent would like to thank AIMS Multimedia for their remarkable work towards supporting children with special needs and providing them with an opportunity to make their way in this world. Keep up the good work !!!"

Mrs. Ritu Singh
Mother of Harmit Singh

AKSHIT MAUDAR

18 YEARS

BACKGROUND

Akshith Maudar is an 18-year-old student of sol XII. He is autistic and face challenges in communication and social interaction. His hobbies are music and reading. He connected with AIMS MEDIA through an advertisement which outlined standardized modules of adaptive teaching methodology. Currently, he is learning the Ability enhancement Multimedia Program (AEMP) on the virtual mode. He has learnt the basic of sketching and Colouring to develop his cognitive and artistic sense in pursuit of abilities needed for a creative designer as per market need, hence to find a sustainable vocation. As per my observation Akshith has tangibly enhanced his skills while enjoying each session of this program.

I really would like to appreciate the way AIMS media work with students to develop their creative skills. Their teaching modules are well equipped with audio and visual tools which allow self-paced learning. End of module assessment and very competent facilitator aid students in enhancing their capabilities.

Dr. Chandra Maudar
Mother of Akshith Maudar

PRANAV BAKHSHI 21 YEARS

BACKGROUND

Pranav had a very traumatic birth history and survived against all odds, to be diagnosed at two. His never say die spirit has persisted. He had diverse interests even as a child and enjoyed music, drawing, skating, playing the keyboard and dancing. He has excelled in photography, mimicking and elocution. He is a guest columnist with an image. He developed interest in modelling and is India's first fashion model with autism. He is also India's first individual with autism to deliver two TEDx talk. He is going to deliver his third one shortly. He is also interning with Thomson Reuters at their Global Online Desk.

A search for a suitable education space for Pranav ended with Aims Media. He is pursuing a four-year multimedia program. The learning space is inspiring and creative, the teachers are focused and Pranav has looked forward to his classes every single day. Pranav found the right mix of flexibility and structure. When he had to be away for his many endeavours, he was sure to find the intervention for the time lost and he loved the routine of the classes. Since he has a creative bent, he looks forward to the inputs he receives at the institute. He is slowly and steadily becoming more confident in his skills and adept at the craft.

Mrs. Anupama Bakhshi
Mother of Pranav Bakhshi

RITIK

22 YEARS

Ritik is a student of AIMS Media since 2017 and he has done his basic education from A. SN School Mayur Vihar but after his 8th standard, I found difficulties in reading and learning because Ritik comes under the slow learner category with mild ADHD up to 6th standard study was good but just because of study load I made his admission in NIOS for the completion of 10th and 12th.

BACKGROUND

When Ritik was having his occupational therapy, Dr. Ashima who was in a max hospital she has given me a reference of AIMS Media. Ritik is slow in learning but practically he is good. He joined AIMS Multimedia in 2019. For one year he was going to Mahu Vihar center where he not only gained knowledge but he also gained life skills. On the computer, his memory is sharp. Ritik has a lack of self-confidence after joining the AIMS Media. Ritik has improved a lot and we found his interest in computers, graphics, and also developed his design skills.

Just because of teachers' support from AIMS Media we can see the behavior changes and work span changes. Now he can concentrate more on his work. Through AIMS Media Ritik learned a lot and they give a parent training session as well that how to teach children at home as a parent. I can see a better future in the designing field for Ritik when 2020 COVID hit. The AIMS Multimedia did a very good hand holding and he was able to move beginner level to advance level, now he also earns by doing small projects.

Ms. Ashima
Mother of Ritik

T.L.NARAYANAN 16 YEARS

BACKGROUND

My son T. L. Narayan passed 8th at KV, Bengaluru. After that we were trying to find that kind of professional course that can develop his soft skills & creative skills so it could help him in future aspects as a professional skill then we came to know about AIMS Media for him by guidance from Asha Kiran Bengaluru and we have gone through with his CQ test and after counselling we came to know briefly about LB-AEMP. For that he was eligible & we get that curriculum which can help Narayan to develop his creative skills professionally as a future aspect.

He has a keen interest in drawing & playing. He loves to draw the sketches and active in playing outdoor games. He loves to do painting and doing artistic work. Now he is active in class and always ready to learn new concept & ideas with curiosity.

Now past 4 months he is participating actively in the class, creating good sketches and attending the class with focus and attention span in improving

"As a parent I am experiencing that after joining the classes he is improving his creativity & computer technical skills which will be helpful for him to implement his creativity effectively & professionally !!!"

T. N. Lakshmanan
Father of T.L. Narayanan

AVIRAL KUMAR

17 YEARS

BACKGROUND

Aviral is much quiet child. He is not very open with everyone. As per medical record, Aviral is non-verbal and mild Autistic child. He has been continuously getting speech therapy, Aviral tries to avoid to speak and when asked to speak, he mostly murmurs and tries to omit words. He joined AIMS Media in the year 2018 for AEMP course (Ability Enhancement Multimedia Program) . Over the period , it has shown tremendous changes in the life of AVIRAL and has developed skill in digital design in multimedia. Now he is doing designing as parents we saw his wonderful work that he is learning and observing the thing. His skill developing every day. He has learned the following skill:

Manipulating the colour of an image.

#Cropping images.

#Repairing flaws, such as dust on the lens or red eyes.

#Drawing on an image with a pen or pencil.

#Adding text to images.

#Removing people or objects within an image.

#Organizing photos for quick access.

#Publishing images online or send via email.

#Basic of 3D animation

#Making of Card

Mrs. Vandana Aggarwal
Mother of Aviral Kumar

ESHA SUMAN

18 YEARS

BACKGROUND

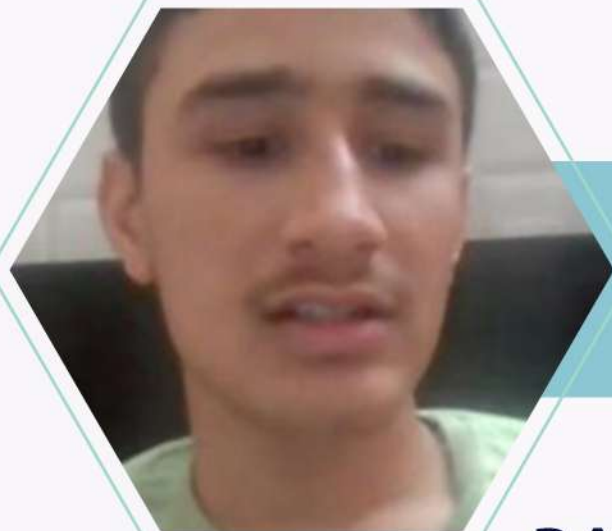

Esha is little Hyper Active and she is an ADHD (Attention Deficit Hyperactivity Disorder) child, therefore she is having little less Attention Span as well. Esha's speech is not proper and some of the words are not clear to understand. Esha is an expressive child who can like to express her feelings. In 2020, Esha was referred to Aims Media through a friend of her mother. Esha has given the CQ test of Aims Media, AEMP through which she got into Course. Since now she has learned various tools & techniques of Multimedia like Drawing, Painting, Character Making, Storyboarding, Comic Script, Photography, Photo Editing & Graphic Designing etc. Through the learning which she gets from this course.

Esha is a student of Aims Media since 2020. She is pursuing her LBAEMP (Learning Based Ability Enhancement Multimedia Program) from Aims Media. This year Esha is going to complete her Intermediate from NIOS Board. Esha completed her Academics Qualification from various cities of Gujarat like Surat, Godra, Vadodara & Gandhinagar etc.

Esha can make a career in various professions like Storyboard Artist, Photographer & Graphic Designer etc. Multimedia is a very vast industry which provides plenty of career options. After joining this course, Esha became more computer friendly and it also helped her to improve her Attention Span. Esha learned designing tool like Photoshop through which she creates greetings for her family & friends

Ms. Bharti
Mother of Esha Suman

HARSHAL SANT

16 YEARS

BACKGROUND

Harshal has been a slow learner which was picked-up early while he was growing. He has Short Span of Concentration & hyperactive. We observe he is starting to showing his interest in computers. He is doing coloring, Painting small designing in open shores software. Later on He has developed a keen interest in computer graphics. After the long search we came to know about Aims media through Dr. Deepak Gupta. After joining AIMS Media he learned a many things. He creating small graphics on different software's. Day by day his skills are developing. We are thankful that AIMS Media doing great work with our child and updating his/her skills.

After joining AIMS Media he learned a lot especially in his interest. He try to create the graphics on different softwares like Photopea and Photoshop etc. It is improving his creativity & involvement in learning the tools using it in different theme assignments & he is a student with Aims media since last 2-3 years.

Under the supervision of teacher now he is able to focus in the online class sessions applying his creative ideas, completing his projects successfully & developed a deep interest in the use of graphics.

"Thanks to Mr Rakesh and his team efforts for doing a great service to such kids & providing the assistance to parents whenever they need any technical help to guide their children and all the best for future"

Ms. Rinki Sant
Mother of Harshal Sant

MONARCH KAPASI

18 YEARS

BACKGROUND

Monarch has been always very loving and active child , initially had delayed speech issue , but later on he recovered normal speech . Monarch completed his 10 grade studies and was always interested in Computers . Therefore we started searching for options on one to one online teaching institutes and we found Aims institute which had many courses in the field of Computers. Monarch has joined AIMS media in 2021 for Office Automation and Animation course. They assisted us in choosing the right course for Monarch . We enrolled Monarch for 2 coursesThe courses are well designed and all the needfull information is provided in details on the website and individual log in provided by the Institute .

Best part is that perfect weightage has been given to Theory part and Practical part . Also the Teachers were well qualified and very helpful during the course implementation . The courses are well designed for online studies . AIMS instute has definately played important role in Monarchs career shaping.

Mr. Dharmesh Kapasi
Father of Monarch Kapasi

NEILAADRI SARCKAR

25 YEARS

BACKGROUND

The training / learning process in AIMS media has improved his sensory memory, increased working memory. Based on the Cognitive Theory of Multimedia Learning, Neil learns more from pictures and words than from words alone. They remember the image more than the printed materials. The learning of translation to videos, slide presentations, animation, photos, drawings, and other illustrations improves the brain's ability to absorb and remember processes that are presented in an interesting and informative way. That helps him a lot to improve the cognitive skill. Now most of the information is at his fingertips on their smartphones. He also knows that he can be entertained almost instantly through his mobile devices.

Our personal journey into this world of autism began in 1998 when Neilaadri was diagnosed with ASD with speech delay. The first thing we noticed was that he seemed very restless. He was always unsettled. He had a lack of eye contact in his eyes. As each day passed, we recognized more characteristics of autism with repetitive behaviours, speech/sound delays and more. We moved one doctor to another for the treatment of Neilaadri. Unfortunately, in 1998 people were not aware of ASD. We found it very difficult to understand what is to be done next but with the grace of GOD and the therapies we overcame the issues and now Neilaadri is self-independent, capable of doing the things independently, passed out 12th standard and is now doing well in his multimedia course.

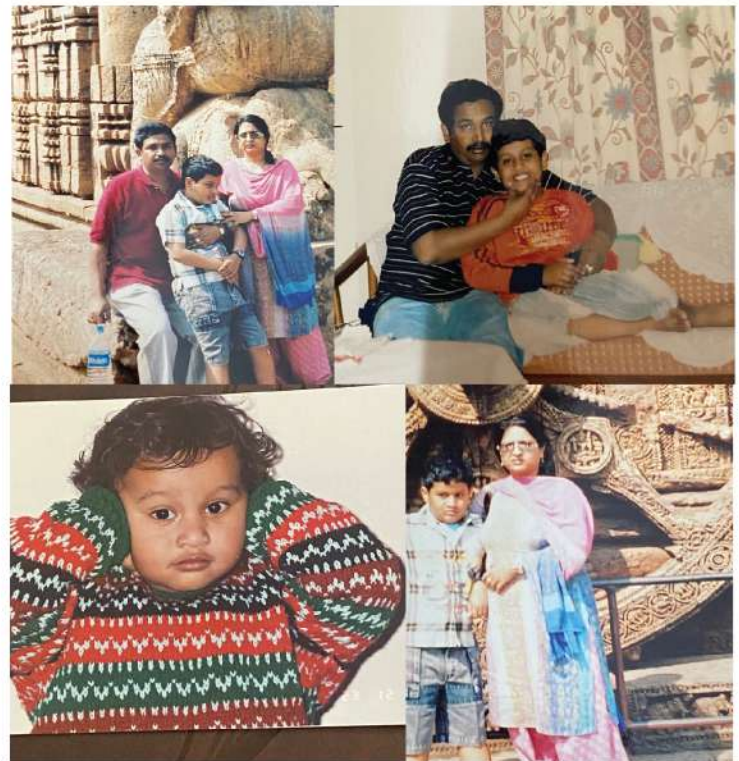

Ms. Sanjukta Sarckar
Mother of Neilaadri Sarckar

Neilaadri has been diagnosed with childhood Autism with delayed speech. He has been undergone training in Occupational therapy, speech therapy and psychological advice from therapists from different hospitals.

Neilaadri used to go to normal school from his childhood and trained in St. Mary's school, Safdarjung Enclave, New Delhi. He was in the same school till 10th standard.

Neilaadri appeared in 10th standard exam through NIOS and passed in 2014 and 12th standard exam through NIOS and passed in 2016.

Neilaadri has joined AIMS media in 2017 for multimedia course. Since then he is with AIMS media and pursuing his advanced course in Multimedia.

RISHABH SHUKLA

22 YEARS

BACKGROUND

Rishabh is 22 year adult with a condition of ASD. He is independent and cognitively able individual. When he was small, he had severe receptive and expressive language delay. He had all the milestones on time but was lacking in communication and speaking. He got diagnosis of Pervasive development disorder at the age of 4.5 yrs.

As a mother and Special Educator I feel because of late diagnosis his early intervention got delayed and further hampered his education. Rishabh could not pursue senior school as he was not able to cope up the studies. Rishabh studied in The Heritage Experiential school Gurgaon. The school has big dept of SEN students. The school decided after the assessment at the age of 14 yrs that he should pursue vocational training. The school tied up with AIMS Media.

Rishabh has done 18 months course from AIMS Media. He got excellence in all the areas. Being Parents we had challenges of denial, acceptance ,school admission,mainstreaming and so on. He is also a part of Walk with a Difference, fashion show organized by AIMS Media As Mother, I decided in the beginning that I will do some course which will help Rishabh in future. I did Diploma in ASD and then Bed sp edu from IGNOU. Now I am working as Mainstream Sp edu in The Heritage school. Though, he had language issues, he was good in learning all the hands on activities. From the beginning itself he was fond of working on computers. He understands better visually as he has auditory processing difficulties. He was bright student in all the vocational training activities. He is doing some paid projects with AIMS Media. As a mother I would say that Rishabh is bright, talented individual. Whatever he does he does with perfection.

Mrs. Rajni Shukla
Mother of Rishabh Shukla

DEVANSH CHAUHAN

22 YEARS

BACKGROUND

Devansh Chauhan is youngest of three children with two elder sisters. He has been a slow learner which was picked-up early while he was growing. He has Short Span of Concentration which seems to be improving. After completing Class XII from School securing 88% marks. He has taken keen interest in listening to music- new style of songs and dancing. He has had hands on learning guitar and synthesiser. We decided for him in consultation with his teachers and He had joined AIMS Media.

After joining AIMS Media He learned a lot, especially his interest. He has been able to perform activities with greater attention while completing tasks given to him from in time. Getting paid on tasks completed has been a good encouragement to understand importance of working and becoming economically independent. Kshitij Pancholi Sir has profound ability to withstand resistance which he has faced at times but continues effortlessly and encouraging Devansh in learning finer nuances graphics using different softwares like Photopea and Photoshop etc.

Now he is receiving different projects on different topics with the supervision of teacher. Now he is able to focus in the class sessions applying his creative ideas and completing his projects successfully.

"He likes to attend the classes under direct supervision of his teacher, without taking assistance from his parents and feels happy. He has been able to pick up various topics. Now he can use different software". Our thought he will receive more new projects from new companies."

Mr. Rajesh Chauhan
Father of Devansh Chauhan
